AMERICAN SAVINGS BANK REPORTS 2018 YEAR-END AND FOURTH QUARTER EARNINGS

***Fourth Quarter 2018 Net Income of \$21.8 Million
2018 Net Income of \$82.5 Million - Highest in Bank's History
Solid Earnings Growth and Profitability***

Selected 2018 Highlights

- Continued improvement in 2018 earnings and profitability
- Return on equity of 13.5%
- Deposit growth of 4.6%
- Net interest margin expanded 14 bps to 3.83%
- Efficiency ratio of 59.4%, improved more than 200 bps versus 2017

HONOLULU - American Savings Bank, F.S.B. (American), a wholly-owned subsidiary of Hawaiian Electric Industries, Inc. (**NYSE - HE**) today reported 2018 net income of \$82.5 million compared to \$67.0 million in 2017. Net income for the fourth quarter of 2018 was \$21.8 million, compared to \$21.2 million in the third, or linked, quarter of 2018 and \$16.9 million in the fourth quarter of 2017. Key measures of efficiency and profitability strengthened over the prior year, with an efficiency ratio for the full year of 59.4% compared to 61.6% in 2017, net interest margin expanding to 3.83% compared to 3.69% for 2017, and return on average equity of 13.5% compared to 11.2% for 2017.

“2018 was a record year for the bank, reflecting the combination of a healthy Hawaii economy, the benefits of tax reform, and the hard work of our ASB teammates to improve efficiency and deliver disciplined growth. We are excited

about the opportunity for continued efficiency and operational improvements with our transition to our new corporate campus during the first quarter of 2019,” said Rich Wacker, president and chief executive officer of American.

Financial Highlights

Net interest income was \$242.7 million in 2018, an increase of 8% compared to \$223.9 million in 2017. Fourth quarter 2018 net interest income was \$63.4 million, compared to \$61.1 million in the linked quarter and \$57.0 million in fourth quarter of 2017. The increase in net interest income reflects growth in interest earning assets along with the improved interest rate environment, which resulted in higher yields on interest earning assets. Net interest margin grew to 3.83% in 2018 compared to 3.69% in 2017. Fourth quarter of 2018 net interest margin was 3.95% compared to 3.81% in the linked quarter and 3.68% in the fourth quarter of 2017, with the improvement primarily attributable to higher yields on interest earning assets and continued low funding costs.

The provision for loan losses was \$14.7 million in 2018 compared to \$10.9 million in 2017. The fourth quarter of 2018 provision for loan losses was \$2.4 million compared to \$6.0 million in the linked quarter and \$3.7 million in the fourth quarter of 2017. The year over year increase in the provision for loan losses was primarily due to additional loan loss reserves for the consumer loan portfolio. The decrease in the fourth quarter of 2018 provision for loan losses compared to the linked quarter was primarily due to releases of reserves in the commercial and commercial real estate loan portfolios as a result of improved credit quality and the payoff of a criticized commercial real estate construction loan. The 2018 net charge-off ratio was 0.34% compared to 0.27% in 2017 primarily due to charge off activity in the personal unsecured loan portfolio. Nonaccrual loans as a percent of total loans receivable held for investment was 0.56% compared to 0.59% in the linked quarter and 0.51% in the prior year quarter.

Noninterest income for 2018 was \$56.1 million, compared to \$61.6 million in 2017, and fourth quarter 2018 noninterest income was \$13.5 million, compared to \$15.3 million in the linked quarter and \$15.0 million in the fourth quarter of 2017. The lower noninterest income for the year was primarily due to lower debit card interchange fees as a result of a new accounting standard that reclassified \$4.2 million of debit card expenses in 2018 to noninterest income.

Noninterest expense for 2018 was \$177.4 million compared to \$175.9 million in 2017. Fourth quarter of 2018 noninterest expense was \$45.7 million compared to \$43.6 million in the linked quarter and \$45.3 million in the fourth quarter of 2017. The increase in noninterest expense for the year was primarily due

to higher compensation and benefit expenses as a result of annual merit increases and the bank's decision to increase the entry salary for employees, partially offset by the reclassification of debit card expenses described above.

Total loans were \$4.8 billion as of December 31, 2018, up 3.7% from December 31, 2017, with retail loans up \$130 million, or 3.9%, reflecting American's disciplined approach toward growing the loan portfolio. The commercial real estate construction portfolio was down 14.8% from December 31, 2017.

Total deposits were \$6.2 billion at December 31, 2018, an increase of \$268 million or 4.6% from December 31, 2017. The average cost of funds was 0.25% for the full year 2018, up 4 basis points from the prior year. For the fourth quarter of 2018, the average cost of funds was 0.28%, up 2 basis points from the linked quarter and up 7 basis points from the prior year quarter.

Overall, American's return on average equity for the full year was solid at 13.5% in 2018 compared to 11.2% in 2017 and the return on average assets for the full year was 1.20% in 2018 compared to 1.02% in 2017. For the fourth quarter of 2018, the return on average equity was 14.1%, compared to 13.8% in the linked quarter and 11.1% in the fourth quarter of 2017. Return on average assets was 1.25% for the fourth quarter of 2018, compared to 1.22% in the linked quarter and 1.01% in the same quarter last year.

In 2018, American paid dividends of \$50 million to HEI while maintaining healthy capital levels - leverage ratio of 8.7% and total capital ratio of 13.9% at December 31, 2018.
