¹ At December 31² Renewable generation as a % of total sales, excluding electrical energy savings from Energy Efficiency and Solar Water Heating technologies that do not count toward RPS Standards beginning January 1, 2015.³ The lower RPS% for Hawaii Electric Light in 2018 is due to the fact that third-party owned Puna Geothermal Venture (PGV) was offline beginning May

2018 due to lava flow on Hawaii Island.

EXPLANATION OF HEI'S USE OF CERTAIN UNAUDITED NON-GAAP MEASURES

HEI and Hawaiian Electric Company management use certain non-GAAP measures to evaluate the performance of HEI and the utility. Management believes these non-GAAP measures provide useful information and are a better indicator of the companies' core operating activities. Core earnings and other financial measures as presented here may not be comparable to similarly titled measures used by other companies. The accompanying tables provide a reconciliation of reported GAAP¹ earnings to non-GAAP core earnings (including diluted earnings per common share), the return on average common equity (ROACE) and the adjusted non-GAAP core ROACE for HEI consolidated and the utility.

The reconciling adjustments from GAAP earnings to core earnings include income, costs and associated taxes related to the terminated merger between HEI and NextEra Energy, Inc., the cancelled spin-off of ASB Hawaii, Inc. and the terminated liquefied natural gas (LNG) contract which required the Hawaii Public Utilities Commission approval of the merger with NextEra Energy, Inc. For more information on the transactions, see HEI's Form 8-K filed on July 18, 2016, and HEI's Form 8-K filed on July 19, 2016. In addition, the reconciling adjustments from GAAP earnings to core earnings also exclude the impact of the federal tax reform act due to the adjustment of deferred tax balances and the \$1,000 employee bonuses paid by the bank related to federal tax reform. Management does not consider these items to be representative of the company's fundamental core earnings. Management has shown adjusted non-GAAP (core) net income and adjusted non-GAAP (core) diluted earnings per common share in order to provide better comparability of core net income, EPS and ROACE between periods.
